About Us

Over 40 years ago Burton James brought luxury custom upholstery to California with the Comfort First philosophy which still serves as the foundation of everything we create. Burton James is a trusted leader in custom upholstery, creating pieces that are not only beautiful but also built to be as durable as they are timeless, ensuring they last a lifetime.

8-way hand tied construction

Hand-tufting a sofa

Our bespoke upholstery is bench-made from start to finish using premium materials. Every piece we craft begins with kiln-dried hardwood frames, built in-house to ensure we maintain full control over quality and provide the custom sizing you require complemented with 8-way hand tied or sinuous spring construction. All of our furniture features exquisite upholstered detailing and cushions tailor-made in our Los Angeles factory. Burton James is more than just product; we are dedicated to fostering strong partnerships and earning your trust as your most valued upholstery partner.
